# Abode Living Winter:17

Welcome to the Abode Living 2017 Winter catalogue.

It is packed full of all our new products and many of the old favourites.

This season, it is with much pride and excitement that we welcome back Denim Bed Jeans 331 (P. 4-9) into our range. This modern take on a genuine denim bed linen range is very close to our hearts. Every detail in this range has been carefully considered.

Our famous winter Flannel has arrived with new colours and designs. The highlight of the range this year is a textural waffle flannel quilt cover called Meribel (P. 10-11). It truly is a joy to slip into flannel bed linen on a cold winter's night!

Our feather and down quilts and pillows are the best available anywhere in the world. A big claim yes, but true. One of our lightweight down quilts is the perfect way to stay warm and cosy through winter. A great investment for the future and one that will bring you many years of joy.

Abode Living continues to provide the best quality European home textiles at the most affordable prices to Australian homes. Many of which are still made right here in our Melbourne workrooms.

We hope you enjoy the new products that we have sourced and designed this season and we thank you for your ongoing support.

Warmest wishes

Robert Adair, Founder

## Primo 700 Towels & Bath Mats

This pure cotton towelling range is made differently to traditional towels. Each piece is pattern laid like a garment, cut to size, hemmed with twill binding and then dyed. We love the simplicity and the uniqueness of having no header like traditional towels. The 700gram weight is luxurious and absorbent. The coordinating bath mats are a dense 1200gram weight that provides an exceptionally rich but also soft feeling underfoot. A textured woven border provides a distinctive finish for these thick bath mats. Exclusive to Abode Living, direct from Italy.

# Inside Abode Living

As Australia's leading manufacturer of luxury bed linen, Abode Living may already be familiar to you. However, what you may not be familiar with is that we are a family owned and run business, manufacturing in Melbourne. Founded in Melbourne in 1991 by Robert Adair (original founder of Adairs), the Abode Living family has since grown to include his son Ben Adair. This is subsequently the fifth generation of Adair's to follow in the family business of home textiles and bed linen.

Made in Australia... Right behind our showroom is our factory, office and warehouse. With such a close relationship to the manufacturing and design process, we believe the passion we have for our products sets us apart. Having this facility at our fingertips means we can develop, design and adjust our products or even custom make items with our world class materials. This unique service is something some of Australia's top interior designers have really taken a warming to.

Our company philosophy is to sell the best quality products at the most accessible prices. We are able to do this by selling directly to you, our customers, without any unnecessary markup.

We also pride ourselves on the fact that we offer the largest selection of European white goose pillows and quilts in Australia, which are made from imported European materials. We make amazing quilts, as good as you will find anywhere in the world, and they are all made to order and shipped within 24 hours from our Melbourne warehouse. As a result of making them on site, we have the ability to offer refills, adjustments and rejuvenation services for all of our quilts and pillows.

We really love what we do and truly care about the products we create. We hope you can enjoy them too and we thank you for your ongoing support.
